

As a Labourer working as **Telco worker (rod & roper or cable hauler)**, you will be working in pits and Man Holes with the telecommunications network. Any previous experience in a similar role will be advantageous.

Minimum requirements to be considered for these roles include:

- White Card
- Driver's License (able to drive manual)
- First Aid certificate with CPR
- Ability to pass Fit for Work assessment and Drug and Alcohol testing
- Ability to complete online registration
- Ability to complete comprehensive online inductions
- Physically fit

Preferred requirements:

- Pit, Pipe & Cable Hauling certificate
- Downer & Fulton Hogan Inducted
- Traffic management ticket
- Locating underground services
- Confined space ticket
- Gas testing atmosphere
- Safely working near power as a non-electrical worker
- Experience using a Vacuum Truck
- Experience thriving on pressure to meet daily & weekly Targets
- Police clearance within 6 months

Successful candidates must possess the following attributes:

- Great attitude with attention to safety and quality
- Honest
- Good organisational skills
- Work autonomously and in a team environment
- Reliable and Punctual
- Be physically fit
- Strong focus on personal, team and public health and safety

The role is for a member in a two-person team that will be scoping the Telstra network and rod & roping the ducts. As a Labourer you are required to be able to get to and from each worksite at the start and end of the day via your own means eg. have own transport.

There is the opportunity for flexible work hours and plenty of overtime available. The work is Monday to Friday with 8+ hour days.

Current work contract is expected to run for the next 3+ years, further opportunities within the company to follow.

If you possess a strong work ethic, have a positive attitude and are available to commit to ongoing employment - we would love to hear from you
