

As an experienced **Telco worker (rod & roper or cable hauler)**, you will have knowledge and experience reading Telco maps and understanding how to rod & rope telecommunication networks. You will have previous experience in a similar role and be confident in meeting company requirements.

Minimum requirements to be considered for these roles include:

- White Card
- Able to read and interpret Telco maps on a lpad
- Driver's License (able to drive manual)
- First Aid certificate with CPR
- Ability to pass Fit for Work assessment and Drug and Alcohol testing
- Ability to complete online registration
- Ability to complete comprehensive online inductions
- Physically fit

Preferred requirements:

- Pit, Pipe & Cable Hauling certificate
- Downer & Fulton Hogan Inducted
- Traffic management ticket
- Locating underground services
- Confined space ticket
- Gas testing atmosphere
- Safely working near power as a non-electrical worker
- Experience using a Vacuum Truck
- Experience thriving on pressure to meet daily & weekly Targets
- Police clearance within 6 months

Successful candidates must possess the following attributes:

- Great attitude with attention to safety and quality
- Honest
- Good organisational skills
- Work autonomously and in a team environment
- Reliable and Punctual
- Be physically fit
- Strong focus on personal, team and public health and safety

The role is for a member in a two-person team that will be scoping the Telstra network and rod & roping the ducts. Team leader is required to take home a work Ute with a trailer and an lpad.

There is the opportunity for flexible work hours and plenty of overtime available. The work is Monday to Friday with 8+ hour days.

Current work contract is expected to run for the next 3+ years, further opportunities within the company to follow.

If you possess a strong work ethic, have a positive attitude and are available to commit to ongoing employment - we would love to hear from you
